Professional Summary

Computer Science and Engineering graduate with hands-on experience in software design, coding, full-stack development, database-driven applications, API integration, debugging, code maintenance, and development testing. Proficient in C++, Python, JavaScript, HTML5, React.js, Node.js, and Express.js with experience developing and deploying web and mobile applications. Detail-oriented problem solver with strong analytical skills, fast learning ability.

Experience

National Institute of Electronics and Information Technology (NIELIT) — Ropar, Punjab
Intern — *Aug 2026 – Present*

- Maintained and updated the official NIELIT website, NDU portal, and 12 other campus portals, resolving layout issues and ensuring institutional content accuracy.
- Performed pre- and post-deployment testing to verify website functionality and layout; coordinated with developers and institutional teams to identify and resolve the issues on live websites.
- Designed and deployed a fee payment portal integrating BillDesk with SQL Server for hostel and mess payments.

Projects

CropDesk – Full Stack Agricultural Marketplace Platform | GitHub — Nov 2025 – Feb 2026

- Developed a full-stack farmer-buyer marketplace with crop listings, quality grading, and geolocation-based search.
- Built JWT authentication with email verification, password reset, and an AI assistant using Nodemailer and OpenRouter API; performed API testing, debugging, and bug fixing.
- *Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.IO, REST APIs, OpenRouter API, Geolocation API, JWT, Nodemailer*

BlueGuard – Android Mobile Safety Application | GitHub — Aug 2025 – Oct 2025

- Developed an Android application for real-time beach hazard alerts and AI-driven suitability forecasts using Android SDK and OOP principles.
- Integrated INCOIS API to process live ocean data including wave height, current speed, and sea conditions for real-time safety insights.
- *Tech Stack: Kotlin, XML, Android SDK, OpenRouter API, INCOIS API, Android Studio*

GeeksforCampus – Academic Resource Platform | Live Site — Jan 2023 – Jul 2023

- Developed and deployed a responsive academic web platform using HTML5, CSS3, and JavaScript, providing MCQs, notes, previous-year questions, and study resources.
- Performed frontend testing, debugging, and usability improvements; achieved 5,000+ active users and 1,000+ weekly downloads within the first month.
- *Tech Stack: HTML5, CSS3, JavaScript, Google Workspace, Google Sheets API*

Certifications & Achievements

Frontend Developer (React) Certificate – HackerRank — Sep 2025
Software Engineer Intern Certificate – HackerRank — Jun 2025
CompTIA Linux+ XKO-005 – Cybrary; Linux OS, system administration and CLI proficiency — May 2024
5-Star HackerRank Rating – demonstrated programming and problem-solving ability — Aug 2023

Technical Skills

Languages: C, C++, Java, JavaScript (ES6+), Python, Kotlin, SQL
Web Development: React.js, Node.js, Express.js, HTML5, CSS3, REST APIs
Databases: MySQL, MongoDB, PostgreSQL
Software Engineering: OOP, DSA, SDLC, Software Development Life Cycle, Agile, Software Design, Coding, Debugging, Testing, Code Maintenance, Bug Fixing
Tools & Systems: Operating Systems (Windows, Linux), Git, GitHub, Postman, VS Code, AWS, Android Studio
Other: API Integration, Technical Documentation, Technical Writing, Report Writing, Performance Monitoring, Data Reporting, User Requirements, Problem Solving

Education

Lovely Professional University — Punjab, India
Bachelor of Technology – Computer Science and Engineering — *Aug 2022 – Jul 2026*
